

NATURAL GAS IS LIGHTER THAN AIR: DETECT IT WHERE IT ACCUMULATES

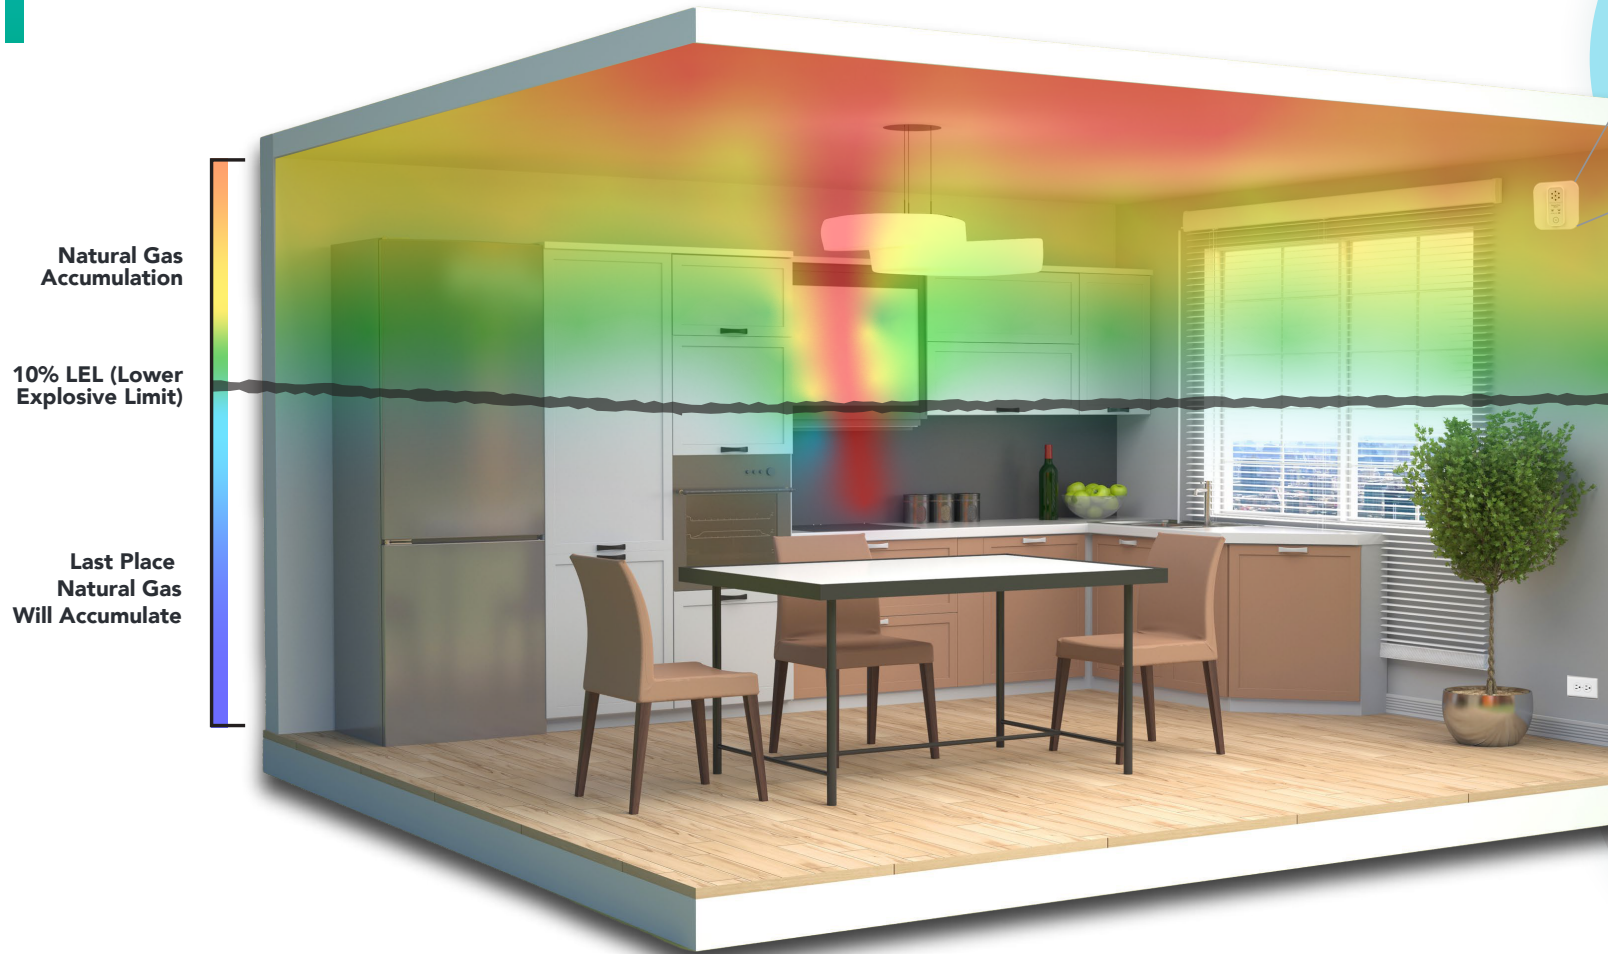

Quicker Detection Against Natural Gas Leak Explosion Potential

DeNova Detect®
Smarter Gas Leak Safety

Natural Gas Leak Simulation Over 57 Minutes

In less than an hour, a natural gas leak can fill the room with dangerous levels of gas.

Denova Detect Natural Gas Alarm

- No Plug
- 10-Year 100% Battery-Powered
- Installs near ceiling, where natural gas of gas rises first.
- Also offered as a Combo Carbon Monoxide and Natural Gas Leak Alarm that provides dual protection against death by poisoning and deadly explosion.

May provide **11 minutes** more escape time on average.

Other alarms

- Often needs outlet
- Mounted near the floor
- **May not** detect dangerous levels of gas in time since gas has not reached floor level.
